## HOOSIER CROSSROADS ROAD RALLY WEEKEND ALL PAVED ROADS!!

SATURDAY JULY 7 – National Course or Tour (competitor's choice)

SUNDAY JULY 8 – Divisional Course or Tour (competitor's choice; suitable for beginners, but challenging for everyone)

Event Descriptions: Both events have been written as moderately brisk Tours (within the speed limits). Course competitors will follow the route using **Tour** rules. The traps are in the form of automatic pauses that are executed whenever the instruction causes them to drive on the **Main Road** as determined by a list of **MRD's** that are included in the General Instructions and as modified for each part of the rally; i.e. on the National they will be rearranged after each of the three breaks, but will remain fixed for the entire part. The Divisional Course rally will have a single set of **MRD's** that will begin at the end of the odometer calibration zone and remain constant for the entire rally. Put another way, for the Course competitors some of the Tour instructions are "redundant" and get a pause. Either of these events is an excellent opportunity for Tour competitors to practice learning to identify Main Roads?
